

The countdown has begun for the new World's Largest Lesson launch in September, but in the mean-time we have a great new lesson plan to keep you occupied until then. Remember our Food Project – 'Every Plate Tells A Story?' Well if you loved that, then you'll love our new addition to the foodie family. Introducing.....Plate PioneerZ. A concept for kids to TAKE ACTION on the Global Goals, encouraging healthy eating and an active lifestyle. Our new resources will focus on Goal 2 (Zero Hunger) and Goal 3 (Good Health & Wellbeing) and will include a brand, spanking new lesson plan, comic AND fun social media assets for you to share. Within these resources you'll find a variety of fun and exciting activities, which will invite children to explore, investigate and question their food choices.

Since you all did such an AMAZING job spreading the word the first-time round, we'd love your support on this. Below are some suggested social posts, feel free to amend them to suit your channels, as well as links to the lesson plan and social media assets.

You can download our entire Plate PioneerZ package here: <https://wdrv.it/9e1a3222d>
